

PRODUCT SPECIFICATIONS

SUPRA 950UMt°

Unique in its category, the **SUPRA 950UMt°** unit combines the proven reliability of the renowned SUPRA 950U, the most powerful undermount unit in the market, with the flexibility of Carrier Transicold's world-leading multitemperature technology.

The SUPRA 950UMt° unit is the only unit specifically designed for multitemperature applications in trucks, draw-bar trailers and semi-trailers up to 60 m³ in volume.

► **Total flexibility for multi-product deliveries**, with a range of ultra-slim

evaporators that can be adapted to any configuration requirement

► **Exceptional performance characteristics** for enhanced product protection, even with frequent door-openings

► **Proven reliability**: the field-tested technology of the SUPRA undermount range, condenser frame and skins manufactured from extremely robust materials for efficient protection against corrosion, extremely high capacity air filter for improved engine protection

► **Easy installation and access**: for improved service accessibility and lower costs

► **User-friendly controls** for a unit that is simple to operate.

■ Condensor

Dimensions: 1972 x 823 x 631 mm

Weight:

T model: 585 kg

S model: 580 kg

■ Refrigeration capacity

-20 °C / +30 °C: up to 6300 W

■ Heating capacity

+20 °C / -18 °C: up to 6000 W

T model

Refrigerant R404A

05G 6-cylinder compressor

1,1 litre Tri-vortex diesel engine

Microprocessor with cab command

Start/stop

Standby/Diesel hourmeter

Automatic diesel restart

Standby cable

Low-noise sound control kit

S model

Version without low-noise sound control kit

Accessories

Fuel tank

Battery

Battery box

Multi-temperature control panel

Waterproof box for cab command

DataCOLD 250 or 500

Door switch

Microprocessor cab command:

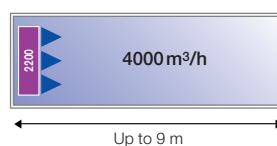

- proven reliability

- easy to use

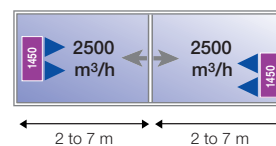

- servicing functions

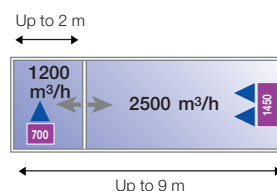

4 standard systems are available, other configurations are available on request.

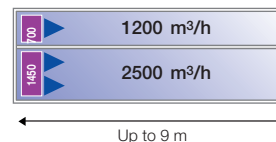

System 1: 1 x MTS 2200

System 2: 2 x MTS 1450

System 3: 1 x MTS 700
1 x MTS 1450

System 4: 1 x MTS 1450
1 x MTS 700

SUPRA 950UMt° is available with the Carrier Transicold range of ultra-slim, single or dual-discharge, lightweight evaporators to ensure you maximum airflow with superior loading space and payload capacity.
