

VECTOR 1850 Mt°

Optimizing the efficiency of the All-Electric Technology, VECTOR 1850 Mt° is the ultimate solution for multi temperature transport needs.

- **Dimensions:** 2050 x 430 x 2227 mm
- **Weight:** 955 kg
- **Refrigeration capacity**
– 20 °C / + 30 °C: up to 9600 W
- **Airflow:** 5 600 m³/h

Associating advanced technology with maximum versatility, **VECTOR 1850 Mt°** is the ultimate multi-temperature systems for semi-trailers.

All the performance of the new VECTOR 1850 – unmatched refrigeration capacity and proven reliability, together with a drastic reduction in fuel consumption – combine with Carrier Transicold's unparalleled experience in Multi-Temperature technology.

Standard features

- 2.2 litre Diesel engine
- HFC R404A refrigerant
- Semi-hermetic compressor 670 cc
- High performance oil filter
- Electrical heating and defrost system
- Automatic phase reverser 400/3/50 Hz
- Return & supply air sensors
- LogiCOLD microprocessor control:
EcoFuel & CoolSet functions
- IntelliSet plain language programming feature

Accessories

- Sound reduction kit
- DataCOLD:
Temperature recorder
- Advanced remote traceability solutions
- Door switches
- Additional temperature sensors
- Control panel
- 200 l fuel tank
- 12V and 24V tail lift battery charger
- PCMCIA card

The generated efficiency increases your bottom-line whilst also reducing environmental impact. This is the Eco-responsibility concept by Carrier.

► **Cold Chain respect**

- Unparalleled pulldown & temperature control
- Complete range of traceability solution

► **Care for environment**

- Low engine emissions
- Best refrigerant containment

► **Cost of ownership**

- Exceptional fuel reduction (EcoFuel function)
- Elimination of belts, clutches & shaft seal.

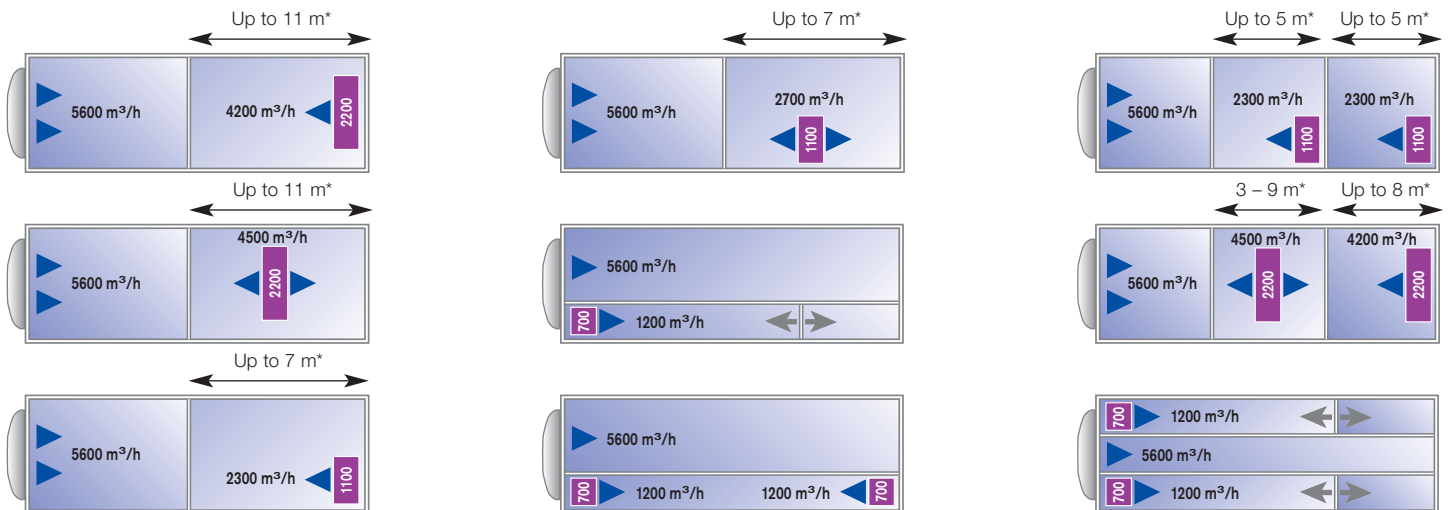

Easy to use slimline control panels, with adaptable positioning and proven reliability.

All the advantages of the LogiCOLD® microprocessor control system for your multitemperature configurations.

9 standard configurations are available. Other configurations are available upon request.

* at –20 °C
