

MULTITEMPERATURE EVAPORATOR RANGE

For your **multi-temperature** truck and trailer applications, no matter how specialised, Carrier Transicold brings you an entirely **new generation of ultra-slim evaporators**.

A **complete range** of **single** or **dual** discharge, extremely low profile evaporators, engineered to **increase airflow** and designed with the latest in **composite materials technology**.

Exceptionally **lightweight** for increased payload capacity, **easy to install and service**, with slimline dimensions for **greater loading space** and application **flexibility**.

With compartment set-points from **- 25 °C to + 20 °C**, this new range brings you the **absolute flexibility** you need for the changing day-to-day requirements of your business.

Single discharge	Mt° EVAPORATOR	Dual discharge
MTS	Multitemperature Truck units	MTD
MMS/MVS	Multitemperature Trailer units	MMD/MVD
